

All
Certified
Degree
Programs
in Ukraine

January 1

2014

This document is an UkrainianUniversities.com publication that contains the full list of all available degree programs in Ukrainian higher education institutions, according to the Ministry of Education & Science of Ukraine.

Published by:
©UkrainianUniversities.Com

The full list of all 657 Degree Programs in Ukraine according to the Ministry of Education and Science of Ukraine.

For more details about studying in Ukraine and Ukrainian Universities you're welcomed to visit our official website UkrainianUniversities.Com or use any of the provided contact details on the last page of this document.

 **Available Degree Programs:**

1. Accounting.
2. Accounting and audit.
3. Accounting and audit in agriculture.
4. Accounting in advertising.
5. Acoustic facilities and systems.
6. Acting.
7. Administrative management.
8. Administrative management, theory of management, administrative law and process, financial law.
9. Advanced vocational training in basic specialties.
10. Advertising and public relations.
11. Aerospace heat machinery.
12. Agricultural construction.
13. Agricultural engineering.
14. Agricultural machinery.
15. Agricultural management.
16. Agro chemistry and soil science
17. Agro ecology
18. Agro meteorology
19. Agronomy
20. Air navigation systems
21. Air traffic organization
22. Aircrafts
23. Aircraft and air engines production, maintenance and repair
24. Aircraft and air complexes system control
25. Aircraft and helicopters
26. Aircraft and helicopter design technology
27. Aircraft and space rockets production
28. Aircraft engine manufacturing technology
29. Aircraft engines and power plants
30. Aircraft equipment
31. Aircraft, air engines and helicopters exploitation and repair
32. Analytical quality control of medicinal compounds
33. Animal sciences
34. Applied ecology

35. Applied informatics in economics
36. Applied linguistics
37. Applied linguistics (with profound knowledge of two foreign languages)
38. Applied material studies
39. Applied mathematics
40. Applied physics
41. Applied psychology
42. Archaeology
43. Archaeology and ancient history of Ukraine
44. Architecture design
45. Architecture of civil and industrial buildings and structures
46. Art of cinema and television (cinematology)
47. Art. Choreography (ballroom dances ballet-master)
48. Artillery complexes, devices and instruments
49. Artistic culture
50. Artistic photography and photographic production
51. Assembling and exploitation of electrical equipment of civil constructions enterprises
52. Assembling and service of devices and systems of technological production automation
53. Astronomy
54. Automated control of computer integrated technological complex
55. Automatic control of technological processes and production
56. Automation and automatization of transport
57. Automation and computer integrated technologies
58. Automation and control in technical systems
59. Automobiles and engines maintenance and repair
60. Automobiles and motor-car industry enterprises
61. Aviation and cosmonautics
62. Banking
63. Biology and chemistry
64. Biology and ecology
65. Biology and farming
66. Biology and fundamentals of ecology
67. Biology and geography
68. Biology and parks' ornament and horticulture
69. Biology and physical education
70. Biology and practical psychology
71. Biotechnical and medical apparatuses and systems
72. Boilers and reactors
73. Botanic'S
74. Bread production, confectionary and pasta technology

75. Bridges and transport tunnels
76. Broadcast, wireless radio and television equipment
77. Building construction products and materials technology
78. Business administration
79. Cartography
80. Cartography and land-utilization
81. Chemical fibers technology
82. Chemical technology and engineering
83. Chemical technology and equipment of finishing production
84. Chemical technology of fats and fat substitutes
85. Chemical technology of fuel and carbonic materials
86. Chemical technology of high-molecular compounds
87. Chemical technology of inorganic matter
88. Chemical technology of liquid scattered elements and materials on their basic
89. Chemical technology of organic matter
90. Chemical technology of pharmaceutical preparations
91. Chemical technology of refractory non-metallic and silicate material
92. Chemical technology of wood working and plant raw materials
93. Chemistry and biology
94. Chemistry, biology and basics of ecology
95. Choreography
96. Choreography and artistic culture
97. Choreography. Artistic culture and library science
98. Civil and industrial construction
99. Clinical pharmacy
100. Clothing technology and design
101. Commercial activity
102. Composite powder materials and coatings
103. Compressors, pneumo-aggregates and vacuum techniques
104. Computer and intelligent systems and networks operation
105. Computer ecological-economic monitoring
106. Computer science and fundamentals of economics
107. Computer science and mathematics
108. Computer science, language and literature (English)
109. Computer studies (with profound knowledge of two foreign languages)
110. Computer-integrated technological processes and productions
111. Computerized complexes and systems of armament and equipment of troops (forces)
112. Computerized systems, automatics and control
113. Computerized technologies and systems of printing and publishing production
114. Construction and exploitation of aerodromes and works
115. Consumer goods modelling and design

116. Crimean Tatar language and literature
117. Cryogenic engineering and technologies
118. Cultural studies
119. Customs commodity research and expert examination
120. Data security in computerized systems and networks
121. Deaf-and-dumb pedagogics and foreign language
122. Deaf-and-dumb pedagogics and Ukrainian language
123. Defectology and psychology
124. Design and manufacture of articles out of composites
125. Designing and construction of oil and gas extraction complexes
126. Devices and systems of nondestructive check
127. Direction (multimedia)
128. Diseases prevention
129. Document processing and information activity
130. Dynamics and strength
131. Dynamics and strength of machines
132. Ecology and environment protection
133. Ecology of food-stuffs and food-stuff production
134. Economic statistics
135. Economics and entrepreneurship
136. Economics and human resources management
137. Economics and legal support of entrepreneurship
138. Educational establishment management
139. Electric drive of industrial installations and technological complexes
140. Electric household appliances service and repair
141. Electric power plants
142. Electric systems and networks
143. Electrical engineering consumption systems
144. Electrical machines and equipment
145. Electrical systems and complexes of transport vehicles
146. Electrification and automation of agriculture
147. Electromechanical automation systems and electrical drive
148. Electromechanical equipment of energy consuming enterprises
149. Electro mechanics
150. Electronic and information control systems for banks
151. Electronic devices and apparatuses
152. Electronics systems and networks
153. Electro technical surveillance systems
154. Elementary education and social pedagogics
155. Energy consumption management
156. Engineering material science
157. Engineering mechanics

158. Engineering, production and technical service of electronic products equipment
159. English and German, French, Italian languages and literature
160. English and Russian (language and literature)
161. English language and literature and German language
162. English language and literature with knowledge of German and French languages
163. English language and literature, second foreign language (Modern Greek, German)
164. English, Spanish, Hebrew languages and literature
165. Entrepreneurship, management and marketing
166. Enterprise economics and legal support of entrepreneurship
167. Enterprise economics and management
168. Enterprise management
169. Environment and natural resources economics
170. Equipment for light industry and services
171. Equipment for oil and gas output
172. Equipment for pressure treatment of metals
173. Equipment of chemical engineering and building materials enterprises
174. Equipment of pharmaceutical and microbiological industry
175. Ethnology
176. Experimental nuclear physics and plasma physics
177. Exploitation of mineral resources deposits
178. Fabrics and knitted wear technology
179. Ferrous metallurgy
180. Film production management
181. Finance
182. Finance and credit
183. Fine and decorative-applied arts
184. Fine art studies
185. Fine arts (sculpture)
186. Fine arts and artistic culture
187. Fine arts. Ethics and aesthetics
188. Fire safety
189. Flexible computerized systems and robotics
190. Flying operation
191. Folk arts (choreography)
192. Folk instruments
193. Folklore studies
194. Food industry equipment and machinery
195. Food technology
196. Food-stuffs technology and engineering
197. Footwear, haberdashery and leather articles production

198. Foreign policy
199. Forest complex equipment
200. Forest engineering technology
201. Forestry
202. Formative computer technologies in machine building
203. Foundry equipment
204. Foundry methods of iron and non-ferrous metals production
205. French language and literature
206. Fruit, vegetable and wine growing
207. Garments and leather goods
208. Gas dynamic and impulse facilities
209. Gas turbine plants and compressor stations
210. General medicine
211. General population service
212. Genetics
213. Genetics and selection of agricultural crops
214. Geochemistry and mineralogy
215. Geodesy
216. Geography
217. Geography and biology
218. Geography and ecology
219. Geography and economics
220. Geography and foreign language
221. Geography and fundamentals of economics
222. Geo information systems and technologies
223. Geology
224. Geophysics
225. German language and literature
226. German language and literature, second foreign language (Modern Greek, German)
227. Goods and services expertise
228. Graphic design
229. Hairdressing and make-up
230. Heat and gas supply and ventilation
231. Heat carrier's technology at heat power stations
232. Heat power engineering
233. Heat power stations
234. Heat treatment of metals
235. High-voltage engineering & electro physics
236. Higher school pedagogy
237. Highways and aerodromes
238. History and English

239. History and foreign languages
240. History and law or social pedagogy
241. History and social pedagogics
242. History and social science
243. History, country studies and tourism
244. History, history of religion and church
245. History, social pedagogy, social management
246. History, Ukrainian language & literature, language and literature
247. Hoisting and conveying, road-building, engineering and ameliorative machines
248. Hotel and tourist services organization
249. Hungarian language and literature
250. Hunting management
251. Hydraulic and pneumatic machines
252. Hydraulic power engineering
253. Hydro improvement (irrigation) (water science)
254. Hydro aerodynamics
255. Hydrogeology
256. Hydrology and hydrochemistry
257. Hydro technical engineering
258. History and Ukrainian studies
259. Impulse heat engineering
260. Industrial heat engineering
261. Information processing and decision making systems exploitation
262. Informational control systems and technologies
263. Informational measuring systems
264. Instruments of fine mechanics
265. Intellectual property
266. Intelligent systems
267. Internal combustion engines
268. International economic relations
269. International information
270. International relations
271. Jurisprudence
272. Jurisprudence (civil law and civil process; international private law)
273. Jurisprudence (criminal law and criminology, criminology-executive law)
274. Jurisprudence (criminal process and criminal law, juridical examination)
275. Jurisprudence (economic law)
276. Jurisprudence (international law)
277. Jurisprudence (juridical psychology)
278. Jurisprudence (specialization in economic law)
279. Jurisprudence (with knowledge of two foreign languages)
280. Jurisprudence and enterprise economics

281. Jurisprudence (law philosophy)
282. Labor training. Technology. Information engineering
283. Labor training and basics of economics, technical drawing, and safety of life
284. Labor training and basics of enterprising
285. Labor training and basics of enterprising, technical drawing and safety of life
286. Labour and professional training (technical labour) and fundamentals of informatics
287. Labour protection and ecology in construction
288. Labour rehabilitation and corrective upbringing
289. Labour training (needlework)
290. Labour training (needlework) and fundamentals of informatics
291. Labour training (technical labour) and physical training
292. Labour training. Technology. Clothes modeling and design.
293. Land forces elements use and control
294. Landscape architecture
295. Language and literature (German & English)
296. Language and literature
297. Language and literature (Arabic)
298. Language and literature (English)
299. Language and literature (English & French)
300. Language and literature (English) and computer science
301. Language and literature (German)
302. Language and literature (Russian & Bulgarian)
303. Language and literature (Russian & English)
304. Language and literature (Russian, English, German, French, Chinese, Japanese)
305. Language and literature (Russian, English, German, French, Spanish)
306. Language and literature (Slavonic)
307. Language and literature (two foreign languages)
308. Languages and literature (English, French, German)
309. Languages and literature
310. Laser and optoelectronic engineering
311. Law enforcement activity
312. Leather and fur technology
313. Library science
314. Lighting technology and light sources
315. Limited access information protection & its processing automation in computer systems and webs
316. Literary creativity
317. Logopedics
318. Logopedics and pre-school education
319. Machine-building industry labour safety

320. Machines and technology of utilized package processing
321. Maintenance and repair of automobiles and engines
322. Maintenance and repair of chemical and oil-and-gas processing industry equipment
323. Maintenance of home electronic appliances
324. Management
325. Management in environmental activities
326. Management in law and order
327. Management in non-production sphere
328. Management in production sphere
329. Management of external economic activities
330. Management of socio-cultural activities
331. Manager of organisations
332. Manual training (technical and service training) and business basics
333. Manual training (technical and service training) and informatics
334. Manual training (technical training), basics of information technology and business basics
335. Manual training and basics of information technologies
336. Manufacture of pharmaceutical preparations
337. Marine power plants & equipment
338. Marketing
339. Materials processing on machines and transfer lines
340. Mathematics
341. Mathematics and computer science
342. Mathematics and economics
343. Mechanics
344. Mechanization of agricultural products processing and storing
345. Medical acoustic and bioacoustics devices and apparatuses
346. Medical devices and systems
347. Medical psychology
348. Metal pressure processing
349. Metal cutting machine tools and systems
350. Metallurgical equipment
351. Metallurgy of non-ferrous metals
352. Meteorology
353. Metrology and measuring instrument devices
354. Microelectronics and semiconductor devices
355. Military sciences
356. Mine safety
357. Mineral dressing
358. Mining machinery
359. Modern Greek language and literature

360. Modern Greek language and literature, second foreign language (English, German).
361. Municipal management
362. Museum science and rarities protection
363. Music pedagogy and journalism
364. Music. Artistic culture and library sciences
365. Musical art (opera and symphony orchestra leading)
366. Musical art and choreography
367. Musical education
368. Musical education and artistic culture
369. Musical education and choreography
370. Musical education and social pedagogy (family tutorship)
371. Musical pedagogy and education
372. Non-production sphere management
373. Non-production sphere management (with knowledge of two foreign languages)
374. Nuclear power engineering
375. Nursing (specialist)
376. Obstetrics
377. Oceanology
378. Oil and gas field's development and operation
379. Oil and gas geology
380. Oil and gas mining equipment
381. Olympic and professional sports
382. Operation of ship power installations
383. Orchestral string section
384. Orchestral wind and percussion sections
385. Organic matters production
386. Organisation of land use
387. Organization management (production sphere management)
388. Organization of aircraft operations
389. Organization of consumer services
390. Organization of fire safety and accident prevention
391. Organization of transport haulage and management
392. Organization of transportation and transport management
393. Organizations management
394. Orthopaedic stomatology
395. Packaging machinery and technology
396. Painting
397. Painting. Artistic culture and library sciences
398. Painting. Artistic culture and library sciences
399. Painting. Artistic culture and library sciences
400. Park and garden management

401. Pedagogical education. Language and literature
402. Pedagogical education. Musical education. Ethics
403. Pedagogics
404. Pedagogics and secondary education methodic. English language and literature, history
405. Pediatrics
406. Perfumery and cosmetics technology
407. Petroleum engineering: oil and gas output
408. Pharmaceutical apparatuses technology
409. Pharmaceutical preparations technology
410. Pharmaceutics
411. Philology
412. Philosophy
413. Photo- and polygraph materials
414. Photogrammetry
415. Physical and biomedical electronics
416. Physical culture and choreography
417. Physical culture and physical training of pre-school children
418. Physical culture and tourism
419. Physical education and methodology of mass sports
420. Physical education in special institutions for children
421. Physical education, mass sports methods, tourism
422. Physical education. Study of mental defects and physical handicaps
423. Physical rehabilitation
424. Physical theory of materials
425. Physical training
426. Physical training (basketball)
427. Physical training (heavy athletics)
428. Physical training (sailing and oar sports)
429. Physical training (wrestling)
430. Physical training (football)
431. Physical training (gymnastics, callisthenics)
432. Physical training (powerlifting)
433. Physical training (swimming)
434. Physical training (tennis)
435. Physical training (track and field athletics)
436. Physical training (volleyball)
437. Physical training and pre-conscription military training, tourism
438. Physics
439. Physics and astronomies
440. Physics and basics of computer science
441. Physics and basics of computer science and computer technologies

442. Physics and car studies
443. Physics and chemistry
444. Physics and informatics
445. Physics and mathematics
446. Physics of solid body
447. Physics of nucleus and elementary particles
448. Physics, informatics and astronomy
449. Physiology
450. Plant protection
451. Plastics and elastomers recycling technology
452. Polish language and literature
453. Polish language and literature
454. Political science
455. Polymers processing technology
456. Polymers technology
457. Postal communication
458. Power engineering
459. Power systems in agricultural production
460. Practical psychology and social pedagogy (social management)
461. Practical psychology and social psychology (psychological and pedagogical consulting in rehabilitation centers)
462. Primary education and applied psychology
463. Printing and publishing production materials
464. Printing presses and automation systems
465. Production of non-metallic refractory and silicate materials and items
466. Production of non-metallic refractory and silicate materials and items
467. Production organization
468. Production technologies (clothes design) and basics of information technology
469. Production technologies (cooking technology) and basics of information technology
470. Production technologies (driving) and basics of information technology
471. Programming for computers and automatic systems
472. Project management
473. Psychology
474. Psychology and management of organizations
475. Psychology and social psychology
476. Psychology. Social pedagogic
477. Public administration, local government
478. Public electrical transport
479. Publishing and editing
480. Publishing computer systems
481. Quality, standardization and certification

482. Radio engineering
483. Radio physics and electronics
484. Radioecology
485. Radio electronic complexes, systems and facilities exploitation and repair
486. Radio electronic devices, systems and complexes
487. Railway constructions and tracks
488. Railway operation and management
489. Railways and railway machinery
490. Re-training personnel in basic specialties
491. Real estate management and expertise
492. Record keeping
493. Recreation systems architecture
494. Refrigerating machines and units
495. Religion studies
496. Restoration of art works
497. Robots engineering systems and complexes
498. Rolling stuck and special machinery for railway transport
499. Romanian language and literature
500. Russian and Ukrainian (language and literature)
501. Russian language and literature
502. Russian language and literature
503. Russian language and literature and English language
504. Russian language and literature and social pedagogics
505. Russian language, literature and artistic culture
506. Safety of activity
507. Science of commodities and commercial activities
508. Science of metals
509. Scientific, analytical and ecological devices and systems
510. Security of data with limited access and automation of its processing
511. Selection and genetics of crops
512. Service maker
513. Shaft sinking and drifting
514. Ships & ocean technology
515. Show business management
516. Slovak language and literature
517. Social and cultural activity
518. Social informatics
519. Social pedagogics
520. Social pedagogics and applied psychology
521. Social pedagogics, social & legal protection of children & youth
522. Social psychology
523. Social work

524. Sociology
525. Software of automated systems
526. Sound control
527. Space rocket power plants
528. Space vehicles design and manufacturing
529. Spanish language and literature
530. Special metallurgy
531. Specialized computing systems
532. Speech writer
533. Spinning of natural and chemical fibers
534. State service
535. Statistics
536. Stomatology (dentistry)
537. Study of mental defects and physical handicaps
538. Surface mining
539. Surveying
540. System analysis and control
541. System of land use and cadaster
542. System programming
543. Systems of control and automatics
544. Systems of electrical power production and distribution control
545. Systems of fire prevention and technological automatics
546. Systems of protection against unauthorized access
547. Technical electrochemistry
548. Technical training. Technology. Fundamentals of design
549. Technological and metallurgical processes in welding
550. Technologies and technological equipment of airports
551. Technologies of fruit and vegetables storage, preserving and processing
552. Technologies of meat storage, preserving and processing
553. Technologies of milk storage, preserving and processing
554. Technology and equipment of machines and constructions renovation and durability enhancement
555. Technology and equipment of welding
556. Technology of fat and fat substitutes
557. Technology of fats and fat substitutes with specialization in technology of volatile oils
558. Technology of fermentation processes and wine making
559. Technology of fish and seafood storing, preserving and processing
560. Technology of food-stuffs of sanity and preventive purpose
561. Technology of grain storage and processing
562. Technology of machine building
563. Technology of minerals underground mining

564. Technology of natural fiber
565. Technology of polymers processing
566. Technology of sweeteners
567. Telecommunication technologies and means
568. Telecommunication
569. Telecommunication systems and certification
570. Textile and knitting technology and design
571. Theater business organization
572. Theatrical art
573. Theology
574. Theory and history of culture
575. Theory and methods of secondary education
576. Theory and methods of secondary education. Biology
577. Theory and methods of secondary education. Chemistry
578. Theory and methods of secondary education. Geography
579. Theory and methods of secondary education. Handicrafts
580. Theory and methods of secondary education. History
581. Theory and methods of secondary education. Language and literature (Russian, English and German)
582. Theory and methods of secondary education. Mathematics
583. Theory and methods of secondary education. Musical education
584. Theory and methods of secondary education. Physical education
585. Theory and methods of secondary education. Physics
586. Theory and methods of secondary education. Ukrainian language and literature
587. Theory, history of literature
588. Thermal physics
589. Tools production
590. Traffic organization and regulation
591. Training courses in Russian and Ukrainian languages for foreign students
592. Translation, language and literature
593. Translation/interpretation (two foreign languages)
594. Translation / interpreting
595. Transport management
596. Transport systems
597. Transport technologies
598. Turbines
599. Turkish language and literature
600. Typhlopedagogs and social rehabilitation
601. Ukrainian language & literature, applied psychology, language and literature
602. Ukrainian language & literature, English, foreign literature
603. Ukrainian language & literature, language and literature
604. Ukrainian language & literature, Rumanian language and literature

605. Ukrainian language and applied psychology
606. Ukrainian language and literature
607. Ukrainian language and literature & Russian language and literature
608. Ukrainian language and literature and English language
609. Ukrainian language and literature and foreign language
610. Ukrainian language and literature and journalism or history
611. Ukrainian language and literature and literary edit
612. Ukrainian language and literature, language and literature (English or German)
613. Ukrainian language and literature, literary editorship and library science
614. Ukrainian language and literature, school library science
615. Ukrainian language and literature, social pedagogy (advertising and social work)
616. Ukrainian language, literature and English language and literature
617. Ukrainian language, literature and artistic culture
618. Ukrainian language, literature and Ukrainian studies
619. Ukrainian language & literature, Bulgarian language and literature
620. Ukrainian language, literature and applied psychology
621. Ukrainian language, literature and history
622. Ukrainian language, literature and psychology
623. Unconventional power sources
624. Urban civil engineering and economy
625. Variety art
626. Veterinary medicine
627. Video-, audio- and cinema engineering
628. Vocational training
629. Vocational training (in light industry, machine building, electrical engineering)
630. Vocational training. Automated control systems of industrial installations
631. Vocational training. Automatization of technological processes of chemical productions
632. Vocational training. Computer systems and networks
633. Vocational training. Computer technologies in machine-building industry
634. Vocational training. Computer technologies in management and education
635. Vocational training. Economics of enterprises. Marketing management
636. Vocational training. Electric power engineering
637. Vocational training. Electronics, radio engineering, electronic circuit engineering, communication
638. Vocational training. Fashion design
639. Vocational training. Fundamental processes of chemical productions
640. Vocational training. Machines and apparatuses of chemical productions
641. Vocational training. Metallurgy in machine-building and instrument-making
642. Vocational training. Metrology, standardization and certification in machine building industry

- 643. Vocational training. Operation and maintenance of industrial transport
- 644. Vocational training. Technology and equipment of welding works
- 645. Vocational training. Technology & equipment for automated production in machinebuilding & instrument making
- 646. Vocational training. Technology of textile and light industries
